**Subject: October 18, 2007 Program on the California
Architects Board**

Dear Bob:

On behalf of the membership and Board of Directors for the ICC Orange Empire Chapter and Los Angeles Basin Chapter, I want to extend our appreciation for your great presentation at our joint October meeting to over 70 attendees. To name a few, the examples discussed on the top ten issues, Practice Act, licensing, and scope of work, were important, informative, and you did an outstanding job of driving the point across that the main and common goal of the California Architects Board and Building Officials is "to protect the consumer".

I know your schedule is a busy one and from the quality of your presentation, the time you invested in preparation was evident. I really appreciate your flexibility in extending your Q & A session to accommodate numerous "what if" scenarios and applaud your expertise in the subject matter. Your ability to answer tough questions, especially from Building Officials who think they know everything, was admirable.

Sincerely,

Gerald Caraig
Chapter President
