ICC Orange Empire Chapter
Presents

**2008 California Energy Standards Update
 Overview for Residential and Non-residential**

The guest speaker, Chris Olvera, works for the California Energy Commission. He will be providing an overview on the 2008 update to the residential and non-residential standards and introducing an Energy Plan Review Checklists designed by the Energy Commission staff that simplifies the Plan Review process of the 2008 Energy Standards. The effective date for the 2008 Building Energy Efficiency Standards will be August 1, 2009. The requirement for when the 2008 Standards must be followed is dependent on when the application for the building permit is submitted. If the application is submitted on or after August 1, 2009, the 2008 Standards must be met.
