

## **CODE INTERPRETATION COMMITTEE**

The Objective of the Code Interpretation Committee is to recommend code revisions, interpretations and code amendments.

The committee selects code issues based on a common interest or significance to the membership. Recommendations will be posted from time to time on the chapter webpage, but only after the membership has had an opportunity to provide input. Recommendations are in no way binding; the building official is solely authorized to render interpretations in his/her jurisdiction.

Anyone wishing to have a code issue considered by the committee, please contact the Committee Chairman, Faisal Jurdi at: [fjurdi@city.newport-beach.ca.us](mailto:fjurdi@city.newport-beach.ca.us)
