

News

WoodWorks California

WHY YOU SHOULD ATTEND

Access to wood design experts for one-on-one support • informative seminars dedicated to wood products, design and construction • technical information from suppliers, manufacturers, engineering consultants and industry associations • exhibits devoted to wood featuring a full range of products

COST

There is no cost to attend a Wood Solutions Fair and lunch will also be provided free of charge.

EDUCATION CREDITS

WoodWorks is an approved AIA provider. Attendees will qualify for one education credit per seminar attended.

About WoodWorks

WoodWorks provides free resources for engineers, architects and others using wood in non-residential buildings.

Visit www.woodworks.org for:

Wood Solutions Fairs were created as a way for engineers and others to obtain the maximum amount of information on the design and construction of non-residential wood structures in a single day—at no cost. They combine topical seminars with relevant trade booths to deliver a comprehensive learning experience with the goal of providing practical information that can be applied to projects immediately.

Seminar Topics and Speakers

Choose up to 6 of the following 16 presentations:

- **Mixed Media: Four Stories of Wood over Concrete Podium Slab**
Douglas S. Thompson, PE, SE, SECB, STB Structural Engineers, Inc.
- **The Biggest Energy Mistakes Made by Architects and Builders**
Steve Easley, Steve Easley & Associates
- **Designing the World's Tallest Modern Mixed-use Wood Building**
Andrew Waugh, Waugh Thistleton Architects (UK)
- **Advanced Wood Framing and Beyond**
Scott Nyseth, PE, Miyamoto & Associates
- **Optimizing Your Non-residential Wood Design Using Finite Element Analysis**
Amber Freund, PE, RISA Technologies

Seminars and Speakers *Continued*

- **Shake Table Testing of a Six-story Light-frame Wood Condominium**
Professor John W. van de Lindt, Ph.D., Department of Civil and Environmental Engineering, Colorado State University
- **LEEDing to Maximum Points with Wood: Making the Most of Green Building Credits**
Jim Bowyer, Ph.D., Bowyer & Associates, Inc. and Dovetail Partners, Inc.
- **Performance Ornamentation in Wood Design**
Hagy Belzberg, AIA, Belzberg Architects
- **Dream Big – New Systems in Wood Design**
Michael Green, MAIBC, AIA, McFarlane Green Biggar Architecture + Design
- **Non-structural Provisions for Multi-story Wood-Framed Buildings**
Jim Churchill, PE, Churchill Engineering, Inc.
- **Meeting Seismic Goals with ASCE-41 for Existing Wood Structures**
Robert Pekelnicky SE, Degenkolb Engineers
- **Today's Glulam – What Design and Building Professionals Need to Know**
Tom Williamson, PE, APA
- **Wood Properties and their Effects on Paint and Coatings**
Dr. Sam Williams, Forest Product Laboratory, USDA Forest Service
- **Fire Protection in Non-residential Wood Structures**
Scott Lockyear, PE, WoodWorks Southeast
- **Reducing Moisture Problems in Commercial Buildings**
Steve Easley, Steve Easley & Associates
- **Implications of the California Green Building Standards Code for Wood Use in Buildings**
Jim Bowyer, Ph.D., Bowyer & Associates, Inc. and Dovetail Partners, Inc.
