### ICC Orange Empire Chapter

*Presents*

*Means of Egress 2010: Updates and Problem Solving*

#### Objective:

#### **2010 California Building Code Egress Updates:**

Sources: 2009 International Building Code; 2010 California Building

Part I: The seminar will provide a quick refresher on the Chapter 10 of the codes including the key elements of the means of egress – exit access, exits, exit discharge and accessible means of egress. Emphasis will be placed on amendments between the 2006 and 2009 IBC's as well as the California amendments to the Chapter.

Part II: After participants are reacquainted with the basics and a first look at the new provisions for 2010, the seminar will shift to problem solving. Participants will be asked to volunteer questions, issues, problems, and actual cases, both the usual and unusual, for consideration. These will be used to illustrate application of the chapter, compare approaches to solving questions, asking those favorite questions such as: "Does the code really say that?" and, when appropriate, play stump the instructor. If your question/problem is best illustrated by a floor or site plan, please bring copies for the participants to share.

The seminar is most appropriate for those with a working knowledge of Chapter 10, from beginner to expert. This will not be a basic instruction on Chapter 10.

#### BOARD OF DIRECTORS
