ICC Orange Empire Chapter
Presents
2007 California Electrical Code
Changes, Updates, Review

Now that the 2007 Code Cycle is halfway through its triennial cycle, are you ready for a detailed seminar on the 2007 California Electrical Code? This seminar will review applications from State Agencies and the major changes to the model 2005 National Electrical Code. Topics to include changes to conductor identification, arc-fault circuit interrupters, disconnecting means for luminaires, State Agency wiring requirements and much more. Whether you are a building official, plans examiner, building or electrical inspector, contractor or electrician, or a design professional, you will benefit from this comprehensive review of the 2007 California Electrical Code.

Seminar will be instructed by Mr. Ron Takiguchi, P.E. Mr. Takiguchi is a Senior Electrical Engineer with the County of Los Angeles Building and Safety Division for the past 23 years. He has been appointed as an advisory member to the Mechanical Electrical Plumbing and Energy Code Committee of the California Building Standards Commission. He has also served in similar function to the California Green Building Standards Code. He is a member of the International Code Council's Exam Development Committee for the International/National Electrical Code Certification and the International Energy Conservation Code Certification. Mr. Takiguchi is an adjunct faculty member for UCLA Extension and Los Angeles Trade Technical College. He is a registered professional engineer in the State of California and is a member of the International Code Council and the Institute of Electrical and Electronic Engineers.
