

Free Energy Code Training for Plans Examiners & Building Inspectors

Nonresidential Building Energy Standards Essentials for Plans Examiners & Building Inspectors

Building energy codes are complex. Plans examiners and building inspectors are expected to understand and enforce multiple codes. Conflicting priorities, time, workforce and budget constraints impact ability to deliver energy savings. This *new, hands-on* course strives to provide plans examiners and building inspectors with the knowledge and skills needed to more quickly and effectively enforce the energy code for Nonresidential projects.

Join us for this course to:

- Understand the 2008 building energy efficiency standards for nonresidential new construction, additions, and alterations
- Understand the purpose of each of the nonresidential compliance forms and related documents
- Effectively communicate energy efficiency compliance options and requirements to builders and clients
- Apply your knowledge of the Standards to typical job tasks

Date: Tuesday, November 8th, 2011

Time: 8:30 am – 4:30 pm

Location: City of Mission Viejo, Saddleback Rm 1
200 Civic Center, Mission Viejo, CA 92691
