

LEED Charrette Facilitation

Are you ready to apply your knowledge of green building?

Attend the **LEED Charrette Facilitation** half-day (4-hour) workshop presented by the U.S. Green Building Council. Gain a greater understanding of conducting a successful LEED Charrette from an experienced professional.

WHY LEARN ABOUT LEED?

Ask any of the 3000+ building owners seeking LEED (Leadership in Energy and Environmental Design) certification right now. Owners and developers are demanding green buildings that save money while protecting the environment and occupant health. The USGBC's LEED Rating System™ is the nationally recognized rating system for green buildings. LEED is already being used by green building projects in all 50 states, and the market continues to grow.

WHAT'S COVERED?

- Benefits of and key elements in planning of a charrette
- Collaborative approach to create realistic & achievable design ideas
- Facilitation strategies, brainstorming & simulation activities
- Charrette follow-up plan implementation
- Tools and resources for conducting a charrette

WHO SHOULD ATTEND?

Any and all industry professionals seeking to conduct or participate in LEED charrettes:

- Design Professionals
- Building Owners
- Service Providers
- Contractors
- Engineers
