

Free Energy Code Training for Plans Examiners & Building Inspectors

Residential Building Energy Standards Essentials for Plans Examiners & Building Inspectors

Building energy codes are complex. Plans examiners and building inspectors are expected to understand and enforce multiple codes. Conflicting priorities, time, workforce and budget constraints impact ability to deliver energy savings. This *new, hands-on* course strives to provide plans examiners and building inspectors with the knowledge and skills needed to more quickly and effectively enforce the energy code for Residential projects.

Join us for this course to:

- Understand the 2008 building energy efficiency standards for residential new construction, additions, and alterations
- Understand the purpose of each of the residential compliance forms and related documents
- Effectively communicate energy efficiency compliance options and requirements to builders and clients
- Apply your knowledge of the Standards to typical job tasks

Date: Wednesday, September 7th, 2011

Time: 8:30 am – 4:30 pm

Location: Orange County Public Works, 300 N. Flower St., Room 503, Santa Ana, CA

Cost: Free

To Register: Contact Wendy Donaldson: wendy@mbaenergy.com

Continental breakfast and lunch will be provided. All participants will receive a comprehensive workbook and tools they can use back on the job.

Don't miss the **nonresidential** counterpart to this course. Contact Wendy Donaldson: wendy@mbaenergy.com for more information

This program is funded by California utility customers under the auspices of the California Public Utilities Commission.
