Presents

2010 Green Building Code

Objective:

2010 Green Building Code:

This presentation is designed as an introduction into the 2010 Green Code. The areas covered are the mandatory requirements for both residential and non-residential buildings. Topics covered are water conservation, energy and site lighting, material conservation and resource efficiency, planning and design, and environmental quality. Additionally, the voluntary Tier 1 and Tier 2 options will be discussed.

This course is recommended for both plan checkers, building inspectors, and planning personnel. The course will be offered in a morning session only and is limited to the first 30 reservations. Each class participant will earn 0.4 CEU's for attending the seminar.
