## **MEMO FROM THE BOARD:**

During our Board Meeting we discussed a range of programs, activities and directions for our Chapter. Based upon the Chapter's objectives we would then need to determine our financial needs and strategies.

The Board discussed the fact that our Chapter has always been driven by the desires and needs of the membership and thus, would like to develop both short and long term goals through a group effort. Chapter needs can range from basic monthly meetings to a wide range of services and activities. Your Board hopes to discuss some ideas at the upcoming Chapter Meeting and will then pursue developing a Strategic Plan which would include an economic strategy that would support our goals.

Some examples of ideas for discussion would be:

- Increased training
- Scholarship funds
- Chapter Code Interpretation Committee
- ABM sponsorship (long term goal 5-10 years)
- Promotional programs for building departments
- Political action
- College classroom career presentations
- Industry outreach
- Newsletter (directed at public/developers or City Management/elected officials)

We have other irons in the fire such as good City Corners and Programs for the Chapter meetings so come prepared to enjoy, learn and participate.
