The USGBC-OC Education Committee Presents:

The September USGBC-OC Chapter Event: "RenewableEnergy@Implement.Now"

JOIN US

Discover how easy and affordable solar or wind power can be to install. Look to those who have created practical applications, and learn strategies for success.

Turn Today's Challenges into Today's Energy Solutions!

What you will learn:

- *How to avoid contractual issues when planning and specifying solar and wind projects
- *The most practical, viable solar and wind solutions you can install now
- *HOW TO FINANCE these solutions!
- *Tips and strategies for wind and solar installation
- *Commissioning and Energy Audits -their crucial role

featured speakers:

RSVP

Anton Paley, American Commissioning Group
Bernadette Stafford, Crowell Moring
Brian Patnoe, AeroVironment
Jim Cahill, Solar City
John Hardwick, Sharp
