Objective:

Furnace Installation:

Based on the **2010 California Mechanical Code**, this four-hour session will cover this common installation and provide guidelines for design, inspection and plan check. The course will outline all aspects of "alcove" installations, installations in garages, in attics and on roofs. It will detail installation requirements for each situation, and combustion air and venting critical issues related to both Forced Air Furnaces and Wall Furnaces. Please bring your Mechanical Code.

This course is recommended for both plan checkers and building inspectors. The course will be offered in a morning secession and repeated in the afternoon. Each class participant will earn 0.4 CEU's for attending the seminar.
