ICC Orange Empire Chapter
Presents
California Energy Commission
Energy Training

Objective:

HVAC/HERS Requirements:

Residential HVAC Energy Requirements for Alterations and New Construction Including HERS Rating Requirements and Indoor Air Quality

Course will discuss the testing required by the HVAC installer for HVAC installation in new construction and alterations. Which forms are required and what to look for on the forms. Specific HERS rating requirements. We will also discuss the ASHRAE 62.2 indoor air requirements.

Nonresidential HVAC Energy Requirements for Alterations and New Construction Including HERS Rating Requirements

Course will discuss the testing required by the HVAC installer for HVAC installation in new construction and alterations. Which forms required and what to look for on the forms. Specific HERS rating requirements for small commercial buildings.

This course is recommended for plan checkers, building inspectors, and design professionals. The course starts at 8:00am and will conclude at 12:00pm. Lunch will not be provided. Each class participant will earn 0.4 CEU's for attending the seminar. Class registration will begin at 7:30 am
