

Hello USGBC-Orange County Members and friends,

Listed below are the upcoming USGBC Workshops that will be held in Orange County in July and August:

**July 18, 2008**    **LEED 101: Getting Started With Green**                      8:30-12:30  
Mile Square Golf Course, Fountain Valley

Attend this program if you're interested in green building would like an introduction to the U.S. Green Building Council, the Council's LEED® Green Building Rating System,™ and the project certification process. Topics covered include the benefits of green building, sustainability, return on investment (ROI), how to choose the appropriate rating system, green building tools and resources, and case studies with lessons learned. **Please note that late registration rates take effect on July 11, 2008.**

#### **.WHO SHOULD ATTEND?**

• Design Professionals • Real Estate Professionals • Building Owners • Service Providers • Product Manufacturers • Government Officials • Contractors • Tenants • Educators • Anyone interested in Green Building

**July 25, 2008**    **LEED for New Construction Technical Review**    8:30-5:00  
Mile Square Golf Course, Fountain Valley

Gain the knowledge needed to maximize commercial building performance, achieve LEED certification and take the LEED Professional Accreditation Exam. This course goes beyond the basics and walk through the LEED for New Construction v2.2 Rating System. Uses examples, case studies and exercises to reinforce learning. Attendees should have a basic awareness of USGBC and the LEED Rating System. It will provide an overview of the building certification process, as well as a **brief LEED Professional Accreditation Exam** review. Please see the LEED Accredited Professional Candidate Handbook for details on the exam. **Please note that late registration rates take effect on July 18, 2008**

#### **WHO SHOULD ATTEND?**

• Architects • Designers • Consultants • Owners • Engineers • Developers • Contractors • Manufacturers

**August 1, 2008 *LEED Charrette Facilitation***  
Anaheim Public Utilities, Anaheim

8:30-12:30

This half-day “train the trainer” program provides a step-by-step guide developed from the best tools and resources for conducting a successful LEED Charrette. Learn to implement the collaborative approach necessary to create realistic and achievable design ideas that work in a Charrette session. Facilitation strategies, brainstorming, and simulation activities reinforce the learning experience.

**WHO SHOULD ATTEND?**

- Design Professionals • Building Owners • Service Providers • Contractors • Engineers

**August 8, 2008 *Managing LEED Documentation***  
Anaheim Public Utilities, Anaheim

8:30-12:30

This half-day program is for design, construction, and operations professionals who want to build on their existing knowledge of LEED with in-depth instruction on LEED documentation. Attendees should have completed a technical review workshop or have equivalent knowledge of a LEED Rating System. Through case studies, examples, and discussions, this course will show how to effectively manage the documentation process and project team. Participants will see actual project templates to learn what documents to select, how to format them, and how information is uploaded in to LEED Online.

**WHO SHOULD ATTEND?**

- For project team members new to the LEED documentation process or who need additional support.

**To register for all workshops:**
